1. Do you need a Guitar or a Bass Guitar?

2. How many strings do you need?

3. As many links as possible to Albums / Songs / Videos where the guitar has the tone you'd like to achieve with yours.

Also specific sections (Clean of this album, distorted of this video etc)

4. Any Special needs? (Headless, Tremolos, Multiscale, no Multiscale etc)

5. As many photos as possible of guitars and instruments you like such as color combinations, finishes, details, bevels, neck colors etc.

(Again, if you are struck by a particular detail of an instrument that you do not like, we will only consider that detail). Even images that you like aesthetically!

For example, I made instruments inspired by comics, or photos of woods. The important thing is to have a guideline of the aesthetics of the instrument

6. Let me know if you have a fairly defined budget, I will take it into consideration; otherwise I can make you more quotes with various options that still satisfy all requests.

IMPORTANT: Answer this simple questions, take your time and be very sure about what you wish for. The future of your guitar will depend on it! When your are ready, write me the answers via mail (info@mrkguitars.com) or via whatsapp (+39 340 1083939)
